

## **SHOULDER & ELBOW LONDON LTD. VIDEO CONSULTATION CONSENT**

---

Due to the COVID-19 pandemic we are taking steps to minimise unnecessary hospital visits for patients. In some cases, face-to-face visits may be necessary to carry out certain clinical examinations, investigations, or treatment. In most cases however, we may be able to carry out a full consultation remotely via video consultation. We would like to have your consent for video consultation.

I hereby consent to a video consultation with Mr. Nick Ferran. I understand that this consultation will take place using Microsoft Teams or other suitable video platforms.

I understand that despite having a video consultation I may still be required to visit hospital for a face-to-face clinical examination, for an investigation, or for treatment.
